

INDIAN INSTITUTE OF TECHNOLOGY, DELHI

REPORT

Assignment 1

ARNAV TULI | ENTRY NO. 2019CS10424

Course - COL362 | Prof. Maya Ramanath

Due January 25, 2022

Chapter 1

Query Timings Characteristics

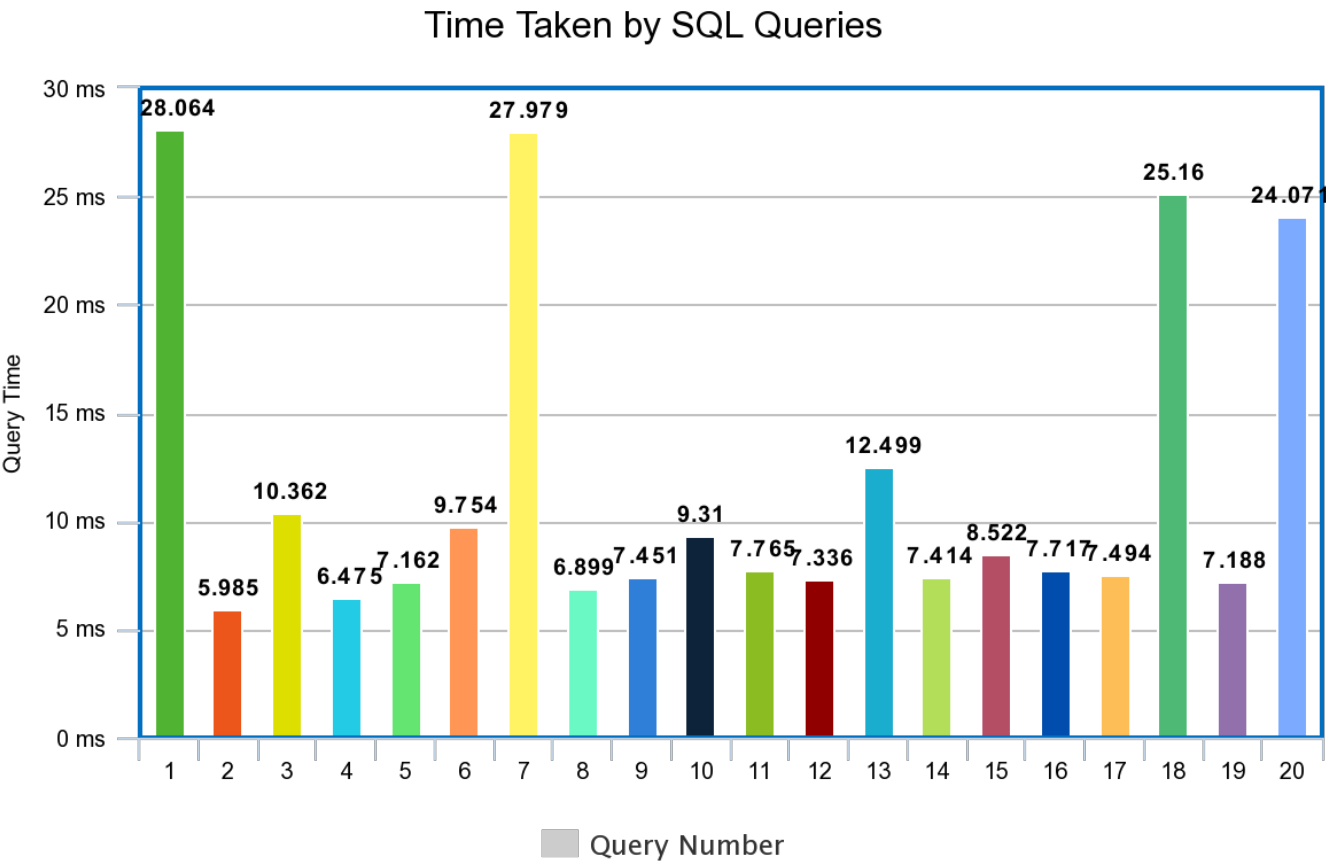

Figure 1.1: Time taken by different queries

Note: \timing command of *postgresql* was used to gather running time of each query.
Note: The Y-axis represents average query time over five instances, when run alone (not in batch).
